(54) COSMETIC COMPOSITION CONTAINING POLYPHENOL COMPOUND DERIVED FROM OENOTHERA TETRAPTERA

(57)Abstract:

PROBLEM TO BE SOLVED: To obtain a new, safe and effective bleaching agent, active oxygen scavenger and lipoperoxide formation inhibitor and a cosmetic composition for ameliorating dry skin, eczema or skin roughening by utilizing them and giving gloss or tension to the skin or the hair on the head.

SOLUTION: These bleaching agent, active oxygen scavenger and lipoperoxide formation inhibitor are obtained by including a polyphenol compound derived from Oenothera tetraptera as an active ingredient and the cosmetic composition is prepared by utilizing them.

LEGAL STATUS

[Date of request for examination]
[Date of sending the examiner's decision of rejection]
[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]
[Date of final disposal for application]
[Patent number]
[Date of registration]
[Number of appeal against examiner's decision of rejection]
[Date of requesting appeal against examiner's decision of rejection]
[Date of extinction of right]
